J&S CONSTRUCTION CO.
a name you can trust

"The J&S Insurance and Restoration Team came to Clarksville after we had a devastating tornado pass through. They performed a containment operation first thing. This made sure no additional damage was done after having roofs blown off and walls torn down. We wanted to save a county government building from becoming damaged even further, so the J&S crew came in and put up a temporary roof and made temporary repairs until something permanent could be done."

Douglas Weiland, Montgomery County Executive
